

November 18, 2024

Dear Valued Customer:

At Associated Materials, we are committed to creating value in the markets we serve through our family of products and services. We appreciate your support and value your business.

Our industry continues to be impacted by increasing manufacturing costs. We have and will continue to work to mitigate these challenges to the best of our abilities. However, due to these economic realities we must implement the following pricing actions as detailed below. Some specific items may change by a higher or lower amount.

Effective on orders placed on or after January 6, 2025, we are implementing the following price actions:

- **5-7% price increase on all composite cladding and accessories**
- **4-6% price increase on all vinyl siding, soffit and accessories**

To ensure desirable service-levels, we reserve the right to limit order quantities.

We appreciate your ongoing commitment to Associated Materials and we look forward to working with you to strengthen and grow our shared interests.

Should you have any questions, please contact your local sales representative.

Sincerely,

Eric Spence,

EVP of Sales and Channel Strategy
